Home Use of School Owned Assistive Technology Policy

Date of ratification: 26/11/2018

Date of review:

Introduction:

This policy, the terms and conditions and the attached agreement was compiled in line with Department of Education and Skills Circular 10/2013 in relation to essential assistive technology equipment for pupils with physical or communicative disabilities.

Rationale:

The purpose of the document is to ensure clear guidelines for home use of specialist equipment which has been recommended by the National Council for Special Education (NCSE) as being essential for pupils who have been diagnosed as:

- having a serious disability and/or sensory or communicative disability to the extent that their ability to communicate through the medium of speech or writing is materially curtailed
- where it is clear that existing equipment in the school is insufficient to meet the child's needs
- where without such equipment it will not be possible for such children to access the school curriculum

Any equipment purchased by the school under Department of Education and Skills Guidelines remains the property of the school and should normally be kept in the school. However, the Board of Management may, in certain circumstances allow the use of the equipment in the pupil's home. Such circumstances are where it is agreed that the pupil could potentially benefit from, or achieve a degree of improvement to their academic and educational performance, their learning and their completion of homework through the use of technical support or equipment such as a school laptop.

This agreement endeavours to ensure the safe custody and handling of the equipment when in the care of the pupil outside of the school.
